

LAM RESEARCH LEADERSHIP SKILLS PROGRAM 2009-2010 SCHEDULE

The primary goal of the Lam Research Leadership Skills Program is to deepen and strengthen each student's professional skill set. Workshops are designed to complement the rigorous UC Davis MBA coursework, and to better prepare our students to be effective in the workplace and the world. Drawing on experts from industry, and delivered in a highly interactive format, each workshop focuses on a specific skill for leadership success. Comprehensively, these workshops prepare students with additional tools they need to succeed in the workplace.

Schedule of Workshops
